Practices Performing Inpatient Surgery		ICD-10-PCS		"ICD-10-PCS Root Operation Groups: Root Operations that Take Out Some or All of a Body Part." This article is the first article in a series of four articles that reviews the coding guidelines regarding root operations. It explains excision, resection, detachment, destruction, and extraction.	AHIMA Body of Knowledge	<a href="http://library.ahima.org/xpedio/groups/public/documents/ahima/bok1_046693.hcsp">http://library.ahima.org/xpedio/groups/public/documents/ahima/bok1_046693.hcsp</a>
Practices Performing Inpatient Surgery		ICD-10-PCS		"ICD-10-PCS Root Operation Groups, Part 2: Root Operations that Take Out Solids, Fluids, Gases from a Body Part, Involve Cutting or Separation Only, and Put In OR put Back or Move Some OR All of a Body Part." This article discusses the root operations of drainage, extirpation, fragmentation, division, release, transplantation, reattach, transfer, and reposition.	AHIMA Body of Knowledge	<a href="http://library.ahima.org/xpedio/groups/public/documents/ahima/bok1_046936.hcsp">http://library.ahima.org/xpedio/groups/public/documents/ahima/bok1_046936.hcsp</a>
Practices Performing Inpatient Surgery		ICD-10-PCS		"ICD-10-PCS Root Operation Groups, Part 3: Root Operations That Alter the Diameter/Route of a Tubular Body Part and That Define Other Repairs." This article reviews the root operations of restriction, occlusion, dilation, and bypass, as well as control and repair.	AHIMA Body of Knowledge	<a href="http://library.ahima.org/xpedio/groups/public/documents/ahima/bok1_047949.hcsp">http://library.ahima.org/xpedio/groups/public/documents/ahima/bok1_047949.hcsp</a>
Practices Performing Inpatient Surgery		ICD-10-PCS		"ICD-10-PCS Root Operation Groups, Part 4: Root Operations That Always Involve a Device, Involve Examination Only, or Define Other Objectives." This article reviews the root operations of insertion, replacement, supplement, change, removal, and revision. It also includes a discussion on root operations that involve an examination, which are inspection and mapping. The last portion of the article reviews the root operations that define other objectives. Those terms are fusion, alteration, and creation. Practices Performing Inpatient Surgery		ICD-10-CM/PCS	Implementation	"The Top 10 List: Phase 2, ICD-10-CM/PCS Implementation Preparation." This document outlines tasks to help facilitate the process. The list is intended to highlight key areas and should be used in tandem with the more complete "ICD-10-CM/PCS Transition: Planning and Preparation Checklist" at <a href="http://www.ahima.org/ICD10">www.ahima.org/ICD10</a> . This brief resource identifies key tasks that must be done in phase 2 of the implementation project, but the steps are not necessarily listed in the order of completion. The tasks are all interrelated and may need to be done simultaneously rather than sequentially. HIM professionals should take an active leadership role in this project by offering expertise and sharing resources with those involved in ICD-10-CM/PCS implementation.
