

# The Collaborative Model

## Core Principles (Nationally Aligned):

- Quality Patient Care & Timely Access
- Disaster Recovery & Business Continuity
- Managing Costs & Coverage
- Privacy & Security

## Collaborative Activities (Local & Regional):

- **Education & Outreach:** *Providing Resources for Patients, Providers, and Health IT Users*
- **Broadband Infrastructure:** *Creating Reliable Broadband Networks and Connectivity*
- **Health IT Adoption & Support:** *Enabling Operations through Training/Implementation*
- **Health Information Exchange:** *Facilitating Secure HIE Locally and Statewide*
- **Quality Improvement & Research:** *Using Informatics and Reporting to Improve Patient Safety*
- **Economic Development & Job Creation:** *Supporting Growth in the Healthcare Sector*
